You Get the BIGGEST VALUES *from the* WORLD'S BIGGEST STORE

No matter where you go or how long you look, you'll not find values approaching those this book presents.

Low Prices Are Here

We've made *low prices* the slogan of this great catalog. Every page shows unfailing evidence of our price smashing supremacy. Every article proves our value leadership. And nowhere are these values greater or easier to see than on the Wearing Apparel pages.

To the left are four examples of what this bargain giving book contains.

There's an *All Wool French Serge Dress*, 31H5455, on page 2A, that you can get this season for only $4.98. *Remarkable*, isn't it?

An *All Silk Taffeta Dress* is quoted under 31H5480, page 5, at only $8.98. Think of it!

And if it's necessary to prove still further our claims to dominance in Wearing Apparel values, there's 31H9490, page 33, *All Wool Serge Suit* for $10.95! That's piling value on value.

An *All Silk Georgette Waist*, 27H5205, on page 78, can be had for just $2.29!

Quality Always the Highest

You'll find our garments, as always, made the Sears-Roebuck way—amply bound seams, double collars, piped edges, double belts, well lined, neatly finished and full liberal sizes.

Whether you buy a 98-cent house dress or the most expensive silk dress we show, you're getting the best workmanship and finish and the most exacting inspection.

We want you to know, too, that our descriptions mean exactly what they say. Rest assured that when we say "all wool" or "all silk," every thread is all wool or all silk. We call materials by their proper names. We want you to know exactly what you are buying.

Nothing will cause us to swerve from our policy of telling the exact truth and of selling the kind of goods that can stand having the truth told about them. Poorly made wearing apparel, no matter how low the cost may be, is not worth the price asked. Get your money's worth! You be the judge!

Designed in America's Fashion Center

Never such an array of fashions approved by all the style experts and designed in the very shadow of our New York Fifth Avenue Office, as we are offering you for this Spring and Summer season.

From the thousands upon thousands of garments viewed by our style organization, only those have been selected which fully met our ideas of what you would really want this year.

As your eye passes over these pages, you will at once see that we have surpassed all other efforts. For here you find the *latest styles*, the *highest quality*—and the *lowest prices*.

Descriptions of Dresses Illustrated on Opposite Page.

We have made an earnest effort to please all tastes in the variety of styles as well as materials we are offering this season.

The Dress pictured under this number on the opposite page is fashioned of mercerized cotton **pongee**—quite a favorite with many women for Spring and Summer wear.

Made in convenient one-piece straight line style. Panel front extends below waistline and forms pockets at sides. Charm and grace are added by the pretty embroidery on vestee, sleeves and pockets. Fullness held at waistline with narrow loop running girdle that ties at side. Invisible left front closing.

WOMEN'S SIZES—32 to 44 inches bust measure. **Give measurements.** Average shipping weight, 1¾ pounds.

31H5520—Natural tan, dark brown embroidery.

31H5521—Light blue, tan embroidery.

EACH **$5.95**

Here is a high grade Tailored Dress which we emphatically recommend. It is a dress you can wear on practically all occasions in the full assurance of being well gowned. Considering the superiority of workmanship, material and style, our price is remarkably low.

Made of all wool French **serge** in straight line effect. Box and knife plaits on waist extend to skirt. Braid trimming is used on fashionable round neck line, on sleeves and on skirt, adding a smart finishing touch. Narrow girdle outlining waistline ties at side and gracefully falls in streamers. Closes invisibly at left side.

WOMEN'S SIZES—32 to 44 inches bust measure. **Give measurements.** Average shipping weight, 2¼ pounds.

EACH

31H5525—Navy blue.
31H5526—All black. **$11.75**

As pretty as the picture is this Dress of tissue **gingham,** a material of even better grade than our Standard Quality. Seldom do you see a wash dress of such unmistakable superiority in quality, such grace and beauty of style, offered for so little money.

Collar, vestee and cuffs are of white organdie and are trimmed with colorful HAND embroidery. Top of vestee is also neatly hemstitched. Crocheted buttons on waist and skirt front complete the trimming. A novel departure from the conventional design is the fold extending all around skirt, slashed in front and picot edged. Wide sash ties in bow at side. Closes invisibly at left front.

WOMEN'S SIZES—32 to 44 inches bust measure. **Give measurements.** Average shipping weight, 2 pounds.

EACH

31H5530—Copenhagen blue check.
31H5531—Green check. **$4.89**

A stunning tailored style of all wool **poiret twill,** fashioned in the modish straight line silhouette. As this excellent fabric if famous for its rich finish and its wearing qualities, our low pricing will be of more than usual interest. Why pay more? You can't get better workmanship and you may be sure that the style is authentic and modern.

Fashionable round neck line is nicely finished with braid, as are the modified bell shape sleeves. Contrasting color vestee of duvetyne gives charming touch of color to waist front. Skirt is smartly braid trimmed. A belt of artificial patent leather with buckle holds fullness at waistline.

WOMEN'S SIZES—32 to 44 inches bust measure. **Give measurements.** Average shipping weight, 2¼ pounds.

31H9100—Black and white check. EACH
31H9101—Brown and tan check. **$3.75**

For the stylish woman of the day, who prefers a plain model in **all wool plaid,** we have this version to offer at the unusually low price of $2.98.

The material, you all know, has a soft finish, is serviceable, and hangs gracefully from the waistline gathers. The odd button trimmed pockets are an interesting feature, adding much to the style. Belt has button closing.

WOMEN'S REGULAR SIZES—See size paragraph.

31H9105—Light blue and tan plaid. EACH
31H9106—Navy and tan plaid. **$2.98**

If you compare our price of $4.95 with prices being asked elsewhere for skirts of this high grade material you will then appreciate what a big value this is.

The **all wool fancy stripe skirting** is very popular and creates distinctive style with the fancy stripe in contrasting colors showing between the double box plaits all around.

Detachable belt fastens in front.

WOMEN'S REGULAR SIZES—See size paragraph.

31H9110—Navy blue with blue and gray stripe. EACH
31H9111—Brown with brown and tan stripe. **$4.95**

This particularly stunning Skirt is fashioned in the popular **wool mixed Prunella cloth,** a firmly woven fabric, which is about 50 per cent wool and the balance cotton.

The pattern is new and beautiful, and a very pleasing effect is produced by the varied color stripes which show when the box plaits open. Belt has button trimming.

WOMEN'S REGULAR SIZES—See size paragraph.

31H9115—Brown and blue plaid with contrasting stripes. EACH
31H9116—Brown and tan plaid with contrasting stripes. **$3.98**

We are confident you will be delighted with this purchase the minute you see it.

The material is **all wool chiffon Panama,** which adapts itself so well to skirts and drapes itself gracefully on the figure. The ravishing embroidery, handsomely carried out in gray and henna artificial silk machine work, is far more effective even than handwork. The model is box and knife plaited all around, flares gracefully and has button trimmed belt.

WOMEN'S REGULAR SIZES—See size paragraph.

31H9120—Navy blue. EACH **$5.95**

To see the beauty of the fancy **Bengaline** used in this very desirable sport model, is to appreciate the remarkable value which we offer at $4.98.

The material itself, a corded, lustrous silk and cotton mixed fabric similar to silk and cotton poplin, is sufficient to attract one without the added charm of the original flap and button trimmed pockets.

WOMEN'S REGULAR SIZES—See size paragraph.

31H9125—Pink. EACH
31H9126—White. **$4.98**
31H9127—Navy.

If you would feel well dressed, and in keeping with Fashion's dictates, it is essential that you order immediately one of these stylish **all wool novelty** stripe skirts for sport and general wear.

It is made in the smart box and knife plaited style, so much in demand. A very interesting feature, is the artificial silk stitching in panel effect, with buttons of harmonizing color. The all around belt also has button trimming.

WOMEN'S REGULAR SIZES—See size paragraph.

31H9130—Tan with green stripe. EACH
31H9131—Navy with gray stripe. **$3.98**

A very novel treatment of embroidery is introduced in this dressy Skirt. It is here handled in panel effect, contrasting color, machine embroidery, while alternating box and knife plaits complete the graceful silhouette.

The material used is good quality **all wool double twisted warp serge** and the all around belt, finished in a point, has button trimming.

Dame Fashion still endorses the cape, and when carried out in a two-tone **All Wool Velour** combination it becomes a favorite.

The charm of this model is achieved by its simplicity and by the quaint shoulder yoke front and back, below which just sufficient fullness appears to allow for the flowing folds.

The snappy throw scarf collar is lined with contrasting color, has handsome artificial silk tassels finishing the ends and fastens on the shoulder with self covered buttons, if it is to be worn close about the neck.

Self material covered buttons adorn the panel back and are used on front. Cape is unlined and sleeveless.

A value we have not been able to equal in years!

The model is simple, yet authoritative in style, and is developed in a soft finish, high grade **all wool velour**, which may well be worn on any occasion.

The slenderizing effect, which is so desirable for the woman of stout figure and which is a noticeable feature of our famous "Trimline" Coats, is here attained by the use of tiny vertical pin tucks and handmade arrowheads adorning the back. The front is made equally attractive by the odd shaped fancy machine stitched collar, cuffs and flap pockets with composition button trimming. No lining is used. Length, 48 inches.

Descriptions of Coats Shown on Opposite Page

Bolivia Cloth still maintains its well deserved popularity as a material for the finer grades of women's Spring coats. Made of a fine quality wool, it is very pleasing to the sight and to the touch, and lends itself most beautifully to the gracefully draped lines of this model.

The back is ornamented with two wide plaits and with rows of artificial silk machine stitching which appear also on the collar and cuffs.

Other style features are the modish sleeves and the soft rolling Tuxedo front. A further touch of novelty is afforded by fastening the coat well over to one side.

At $23.95, we state unhesitatingly, that this is a most remarkable value.

Length, 45 inches.

WOMEN'S AND MISSES' SIZES—34 to 46 inches bust measure. **When ordering be sure to state size wanted.** Average shpg. wt., 4½ lbs.

You, who are a judge of merchandise, will be delighted with the fine quality and good workmanship shown throughout this Coat and it is a real pleasure for us to be able to offer a garment of such excellent material and workmanship at the extremely reasonable price of $19.75.

It is made of popular high grade all wool **velour,** lined throughout with silk in handsome flowered pattern.

Artificial silk stitching is discreetly used in harmonizing colors on back, collar and panel sides to match handsome tassels which finish ends of novelty belt.

Coat has composition button closing, while back has self material covered buttons for trimming. Length, 45 inches.

Down to date in price and up to date in style. We are certain you will be more pleased with this purchase at the very low price of $5.98 than you are with any other you may make this season.

An **All Wool Polo Coat** gives such excellent service for sport or general wear and the fabric is of such soft and pleasing texture, so light and comfortable to wear, that it has become the most popular choice for a Spring garment.

The style we illustrate under this number is designed along trim neat lines, with the plainness of the back relieved by the novelty plaits. Roomy patch pockets buttoned through with two-tone composition buttons matching those of the all around crossover belt are an added attraction of this garment.

The neatly tailored collar is in mannish style and the lapels may be buttoned high at the neck.

The coat is made in the three-quarter or 36-inch length, and is unlined.

WOMEN'S AND MISSES' SIZES—34 to 46 inches bust measure. **In ordering be sure to state size.** Average shipping weight, 3 pounds.

Wholly fascinating in its simplicity and offered at a price far below that which you expected to pay for your new Spring coat!

Developed in **all wool velour** along fashionable lines with tuxedo collar and modish cuffs of loose sleeves uniquely trimmed with artificial silk machine stitching and self material covered buttons.

An interesting feature is the unusual manner in which stitched arrowheads and buttons have been applied to the back of the coat which falls with just the right amount of fullness from the shoulders.

The narrow string belt appearing through slits at the sides may be worn as illustrated or tied in a graceful knot.

Lined throughout, including sleeves, with rich flowered silk. Length, 45 inches.

Distinguished elegance is apparent throughout this Coat, which is a reproduction of a much costlier model. Mere words could not possibly describe the exquisite treatment of artificial silk machine embroidery with touches of handwork interspersed.

All Wool Tricotine of fine quality is used, than which nothing could be more genteel. Perfect tailoring is evidenced by the general neatness of workmanship and by the tacking which finishes the deep stitched plaits at the back and the nobby slash pockets.

Mandarin sleeves, one of the very latest and most attractive style features seen on the New York streets, are an added attraction and are besides an extremely comfortable feature.

This coat is made in the popular 45-inch length and is lined throughout, including sleeves, with an excellent grade of silk.

Dignified and a most delightful possession is the model illustrated, developed in fine **All Wool Bolivia Cloth.** Built along simple and slender lines, it is a mode becoming to any figure.

Smart wooden buttons and artificial silk machine stitching have been skillfully applied at back, wide sleeves and tailored pockets.

The narrow all around belt adjusts fullness, and coat may be buttoned across chest, if desired.

Length, 42 inches. Completely lined, including sleeves, with beautiful flowered silk.

We cannot too strongly emphasize the value offered in this style. A coat made of this high grade material, lined throughout with silk, as this one is, and displaying the high grade workmanship, would cost, if sold in the ordinary way, not less than $22.50.

"Cravenette"
REG. U.S. PAT. OFF.

What "Cravenette" Finish Means.

The "Cravenette" label on these coats means that the cloth has been treated by a special process making it water repellant and moisture proof, but does not affect its appearance or wearing qualities. Coats can be worn in either fair or rainy weather and look like regular dress coats. We recommend them as making ideal garments for motoring or travel. Every garment made of "Cravenette" finished material has the label "Cravenette" sewed in it.

"—and at Such Low Prices!"

Style Square Trade Mark Reg. Hats

A scene in thousands of homes every season—delight and satisfaction over the beautiful style and amazing quality found in the hats which have been purchased from our catalog for a small price. We urge **you** to investigate the tremendous savings you can make on your hats.

You get the services of the most popular designers of style in Paris and New York—but we are **not** charging for the style. In our prices you are paying only for the material and actual work, coming direct from the factory workroom with just our one handling. It is not unusual for milliners in season to ask up to $15.00 for hats of the same materials as our $5.00 to $6.00 hats.

Our hats are selected in our Style Office on Fifth Avenue, New York—the fashion center of America. We offer a wide choice of the season's favorite colors. Every trimmed hat has a smart tailored lining and our packing brings the hats to you in perfect shape.

We want every woman who thinks that a stylish hat means a high priced hat to send for a STYLE SQUARE hat this year. She will thank us for the big savings.

One of the loveliest and most strikingly different Spring hats ever designed. Hat is rather large poke shape, 13 inches wide, with brim slightly shorter in back than front and sides. Upper brim covered with all silk Canton crepe. Beautiful trimming of four large morning glories of lustrous artificial silk plush with satin faced leaves. Crown band of fine quality grosgrain ribbon. The color combinations are most gorgeous. **Colors:** Black with white crepe upper brim and flowers, also purple with orchid colored crepe and flowers, or dark brown with nasturtium (reddish orange) colored flowers. **State color.**

78H9051 $5.85

Perfectly stunning large lace brim hat. Crown is of narrow imported hairlike braid, soft and lustrous. Wired brim, 16 inches wide; 15 inches from front to back, entirely covered with wide silk Chantilly lace, underbrim of silk maline. New long drape of Cire satin ribbon about 4½ inches wide. A most becoming and stylish hat. **Color,** all black.

78H9056 $5.75

What style gives a more charming and altogether lovely line than a rich full feather brim? This stylish off the face model has entire outer brim covered with fine glycerined ostrich feathers, inner brim of pasted feathers. Crown is glossy imported piping straw. Extreme width of hat, 14 inches. Stunning for wear with dress or suit. **Colors:** Solid black, or bright red, or dark brown with sand color feathers, or black with peacock blue feathers. **State color.**

78H9061 $4.95

Distinctly classy hat that is a remarkable value at our price. A hat which can be worn from January until Fall. Smart off the face style of glossy imported hairlike braid, having soft edge. Entire brim draped in folds. Front set off with three rows of glossy black celluloid to look like beads. Novelty ring ornament at side, inner brim of lustrous satin. Width of hat, about 13 inches. **Color,** black.

78H9066 $3.75

You will wonder how a hat so fine can be so low in price. It is a perfect beauty, made entirely of the popular all silk heavy crepe de chine in a close fitting "hood" shape, slightly wider from side to side. Two bright gardenias with glossy leaves make the smart trimming. **Colors:** Black with white gardenias (the season's most popular combination), navy blue with white gardenias, or dark brown with burnt orange gardenias. **State color.**

Girls! Your Styles

Class-mate Styles for 1922

The approved styles for girls selected in our Style Office on Fifth Avenue, New York, the style center of America. When wearing a Class-Mate Hat you can be sure the style is right.

And the Prices! Class-Mate Hats are the better sort, made of selected imported braids and trimmed with real ribbons (no cut edge ribbons on Class-Mates). Yet our prices are far below the prices asked by others for ordinary hats.

We state the ages for which each style is suited and we give head sizes because of the great variance in heads (except misses' hats which are a full size, large enough for most young women).

18H6536 — **For Misses 15 to 18 Years.** — **$1.19**

Buy Class-mate Hats for Style and Value

We recommend Class-Mate hats because the straw braids are carefully selected, imported grade with a fine high luster; because each model is an approved style from the Fashion Center, New York; because long wearing woven edge ribbons only are used on Class-Mates; because good elastic chinstraps are on each hat up to nine years; and because they are wonderful values for the prices, quality considered.

Children's Hats - Special Low Priced Grade

TO fill a need, we have placed these four hats in our line. They are made of one of the wider and coarser qualities of straw braid, fitted with medium quality sweat bands, and trimmed with a grade of ribbon known as "cut-edge." This grade is to be found in hundreds of stores, but, as usual, our prices are far below what others ask. While these are satisfactory hats for low prices, we advise you to select from our famous CLASS-MATE line. We are sure that the extra good features well repay you for spending the extra amount to purchase a CLASS-MATE hat.

CORSETS

We Have YOUR Size and Model

Ready for Your Order-

Choice of Over Eighty-Five Styles-

Imagine *this* Service!

OURS is by far the largest open stock carried by any house selling corsets direct to the consumer. This means the greatest direct factory buying power to us and the lowest prices and biggest values to you.

EVERY corset is carefully wrapped in its individual box (no handled over, loose stock garments). All are clean, fresh goods with firm elastics.

EVERY corset we sell is guaranteed non-rustable, and we furnish full length, good quality lacer with each corset. Our stock includes many patented corsets which cannot be secured elsewhere, and hundreds of thousands of women throughout the land can testify to the great comfort in the fitting qualities and the saving in cost.

ALL materials used in our corsets are tested to give satisfaction. You should take advantage of this remarkable service.

Please Read This ↓

How to Order Your Corset Size.

If you are wearing one of our corsets it is the best plan to order the size stamped on the inside of the corset. If ordering for the first time, take your waist measure tight over the corset you are now wearing and deduct 2 inches for the spread of the lacing. Example: If the measure taken thus is 28 inches over your corset, order corset size 26. Please order both front lacing and back lacing corsets in this way. Do not follow any other instructions, because our corsets are cut to agree with this measuring plan. Average shipping weight of corsets is 2 lbs.

By studying our illustrations and noting the bust and skirt measurements and clasp lengths, you will find it a simple matter to select the exact corset for your figure. **Be sure to state your corset size.**

With the *Ever-sta* CONSTRUCTION

This style replaces old No. 18F535.

CHOICE $4.95 EACH

WE KNOW that these corsets with the Ever-Sta construction embody all the important features of an ideal corset for stout and extra stout women. Ever-Sta construction is a special patented process which means that the strong yet resilient boning will not twist or come out of the stay pockets and that the stripping (bone covering) will not wrinkle and cause discomfort. These are the strongest made corsets we have ever handled. We invite comparison with $7.50 values elsewhere.

18H543
For Stout Figures, Average to Tall.
Bust, 3¼ inches. Skirt, 15 inches. Broad end clasp, 10 inches.

18H544
For Stout Figures, Average to Short.
Bust, 3 inches. Skirt, 12½ inches. Broad end front clasp, 9½ inches.

All Sizes, 24 to 30; Also Even Sizes, 32, 34, 36, 38, 40 and 42.

These new, improved model Ever-Sta Corsets have strong elastic sections under bust, a giving feature, especially desirable for stout women. Made of extra strong white coutil reinforced across front to give better support and longer wear. Long and wide sections at back on each side are splendid for molding surplus flesh. Heavily and correctly bone strength where needed. Six strong wide suspender web hose supporters; these are rive sewed to the special binding on each corset and will not pull off. Supporters further impro extra large size rubber buttons designed to ease the strain on the hose. Av. shpg. wt., 2¼

The Practical Front Corsets—Three Models

Thousands of our customers are daily enjoying these comfortable stylish corsets which combine the best features of both front and back lacing styles.

Enlarged view showing pliable elastic vest.

Outer flap, easily laced, relieves strain on elastic vest.

An unfailingly perfect fit every time you put the corset on.

Each model carries the very essence of fashion—Naturalness. Comfort. Support.

Laces Like a Shoe — Closed Smooth Front — Smooth Fitting Back

THIS wonderful patented corset carries our heartiest recommendation for both comfort and service. Gives a perfectly straight front, smooth back, and small hip effect, and can be adjusted to fit the figure at each wearing in a few seconds. The pliable vest-like inner front section is of high grade elastic and is fastened together directly at the center of the body with a light flexible clasp allowing the corset to set and fit snug to the figure. The outer section laces together like a shoe, both the clasp and lacing being in the center of the figure. We offer three splendid models; each is a big value. Order your regular corset size.

New Stout Model *with* Special Practical Front

Attention is called to the small view encircled, showing the inside and the diagonal supporting system. This diagonal strip is made of heavy wide elastic sewed in at the bottom of the broad end front clasp, so placed that it extends diagonally across and lifts and reduces the abdomen. Gives wonderful support and a trim appearance to the figure without the use of any adjusting devices.

The Prof. Dale Tru-Lift Corsets

—A Help to Womankind—

WONDERFUL corsets for all those requiring abdominal support or reducing. The patented inner belt gently lifts the abdomen and holds it in place without discomfort, thereby assisting nature in bringing permanent relief. Wearers write that it is the most comfortable, health building corset ever worn. One woman reduced her size 3 inches in six months; another, suffering from hernia of the lower abdomen, found it great relief. Doctors order these Tru-Lift corsets for patients recently operated upon, and for mothers after child birth to better restore the figure to normal.

The Tru-Lift corsets are fitted with the patented inner belt, in which aluminum stiffener plates are inserted and covered on each side. These are to be bent to fit the wearer's requirements. They hold their shape and give firm and comfortable support in much the same manner as the fingers of the human hand. Easily adjusted to figures. Corsets made in three models pictured below, to care for every figure. Splendidly made on stylish lines of strong coutil, correctly boned. Handsomely trimmed. Fitted with extra strong securely attached supporters. Comfortable elastic sections in bust. Stays made secure by patented fastening. Worth many times our prices in the comfort and wear they will give. Average shipping weight, 2½ pounds, all lacers are included.

We Guarantee

To replace within six months from date of purchase styles 18H101 and 18H103, should the fabric split or tear, the bones break or rust, or if because of any defect in material or workmanship the corset does not give good wear.

In designing these new improved guaranteed corsets, we had in view: First, to give our customers an extra good value; second, to give them perfect fitting garments with stylish lines. We know that these points have been carefully taken care of and that these garments are much stronger and superior in every way than any guaranteed corsets we have handled in the past. They are made of fine quality, firm white coutil, and have dainty embroidered trimming, six hose supporters, also strong elastic set in the skirt of each where needed. A lot of hidden value in the way of strong innerlinings and fine boning (triple strength where needed) cannot be seen from the outside; it is this good foundation, however, which enables us to make our liberal guarantee. We have models to care for all average figures in both the front and back lacing styles. We include with each garment a good long lacer and instructions for putting on your corset. **State your corset size.** See page 114 for instructions for measuring. Average shipping weight, 2 pounds.

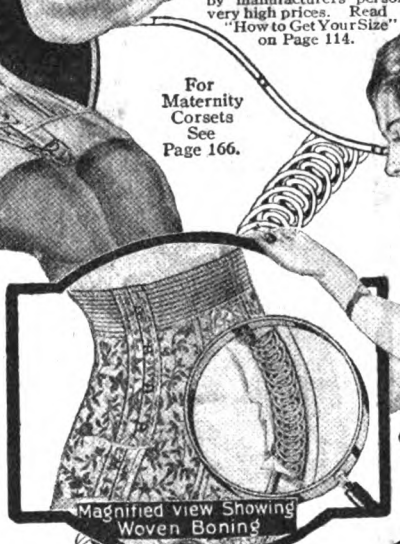
Our Famous
WITH WOVEN BONIN



THESE famous corsets with woven boning have now become such great favorites with our customers that we have added some splendid new models. These corsets are regularly purchased by thousands of customers because they are very comfortable, yet give excellent support. All body materials and trimmings are of a dependable grade. The hose supporters are of good quality elastic, adjustable for length, and fitted with rubber buttons. A good long lacer is furnished with each corset.

This extraordinary boning is made of fine rust resisting galvanized wire woven so that it bends in any direction with every movement of the body, without turning in the stay pocket. Note the magnified illustration; see how it bends. It affords perfect freedom, combined with good support. Until we introduced corsets with this boning on a large scale at our low prices, they were sold mainly by manufacturers' personal representatives direct to the wearer at very high prices. Read "How to Get Your Size" on Page 114.

Fine HAIR SWITCHES At Low Prices

New Booklet of Hair Styles sent with each order.

This beautiful booklet, showing new fashions in hair dressing, sent without charge with each hair goods order, or mailed on request.

"Beauty Comes with Lovely Hair."

HOW TO ORDER HAIR.

Send a good sample of your hair. (Combings do not make good samples.) Pin it to your order. State if you want center, roots or ends matched. Shipping weight of switches, 4 ounces.

We Ship Promptly because we carry a large stock of many shades. For gray and special shades we require about eight days to fill the order. Average shipping weight of switches, 4 ounces.

Example of Saving.

We invite you to compare our $9.95 Switch with $18.00 to $20.00 values elsewhere. Strictly First Quality.

Our Extra Soft Triple Refined Quality

A Firm Favorite Again Popularly Priced.

Three separate strand switches, which you can dress in as many ways as your own hair divided into three equal parts.

YEARS of effort and experimenting enable us to offer you this carefully selected genuine human hair, refined by our special process to an exquisitely soft, pliable texture. Prices are remarkably attractive, considering this really good quality. The beautiful wave is permanent. Made by highly skilled workmen under perfect sanitary conditions. We match almost every shade except gray or white in this quality. If you are in doubt about the proper length and weight switch to suit your needs, let us suggest our 2½-ounce, 24-inch switch, at $3.98, which compares with $7.00 to $8.00 values elsewhere.

Our Very Finest Grade Strictly First Quality Switches.

Made in the very popular three separate strand style, which can be dressed in as many ways as your own hair divided into three equal parts.

THE satisfaction with which such a great number of our customers have received these high class switches prompts us to again urge everyone who can afford it to buy this grade, **Strictly First Quality.** It will blend perfectly in natural texture and shade with your own hair, and will outwear all other qualities because it has not undergone any artificial refining process, and the natural life of the hair remains. Our prices are far below the usual prices for this very fine quality usually to be found only in the best stores.

These switches are superbly finished throughout with the finest of materials, assembled by only the highest skilled workers. The beautiful wave is permanent. We can match **all shades** except gray, gray mixed or white, at these prices. We list this quality in gray mixtures under 18H4371. A good switch, and we guarantee this quality to be such, is really the best investment after all.

Transformations or Band Switches.

Essential to the New Hair Dressings.

THIS style is especially desirable for women with thin hair. It is worn only under the natural hair to give the much needed fullness where the hair is scant. The hair, which finishes about 17 inches length, is woven on a fine weft and mounted on a narrow 22 in. long, to encircle the head. We also list the 14-in. band of hair, finishing 12 in. long for those who wish the back pompadour. Shpg. wt. 6 oz.

Our very best, strictly first quality, soft, wavy human hair on silk ribbon. Comes in all shades, except gray, gray mixed or white.

Mixed Gray and All White Switches.

In the Very Practical Three Separate Stem Style.

USUALLY as one's hair turns gray, it also becomes thin, and a perfect blending switch is practically a necessity and very desirable. Gray hair is generally difficult to match, but our long experience, and rigidly perfect system of matching and inspection, practically insures satisfaction if our instructions "How to Order Hair" are carefully followed. We offer two qualities of gray switches, both of wavy hair.

Our Finest Grade, Strictly First Quality, which blends perfectly in texture and shade and with one's own hair. We match all shades of gray from sprinkle to all white in this quality only. We recommend this grade.

FOR MOTHERS

The outfits shown here and on the following pages have been assembled from garments selected by skillful buyers of infants' wear, who have tried to pick out just the very things you would select yourself. The materials used have all been carefully considered and we have insisted on good workmanship throughout. You will not only find the garments useful, but they are pretty and dainty as well. Each outfit contains the clothing essential upon baby's arrival, and will save the mother many hours of work with needle and thread.

The assembling of these outfits is done in our own daylight workroom. A considerable saving in handling expense is thus made, and this saving, added to the low costs we are able to command through our quantity purchases, is reflected in the very reasonable selling prices of the layettes. If you were to select each garment separately from our catalog, you would have to pay considerably more than we charge for the complete outfit.

SENSIBLE MATERNITY CORSETS

AT SENSIBLE PRICES

Expectant mothers will take pride in their appearance and comfort when wearing our Maternity and Nursing Corsets, which give the support so necessary at this time. Our corsets are cut over correct patterns of good wearing materials. They can be worn the full period, as there are either front or side lacings or stitched down back plaits which can be easily and conveniently let out as desired during the latter months of pregnancy. We are the only mail order house privileged to sell the well known "Ideal" brand.

How to Order Corsets.

Give us your waist measure in your present condition taken over your underwear, less 2 inches for lacing. For instance, if you measure 30 inches over your underclothes, order corset size 28. It is important that you follow these instructions, so there will be no delay in fitting you properly.

Here Are Two of the Season's Greatest Values

Many special features are embodied in these suits to make them more than just ordinary Athletic Union Suits. They are extremely well made in every detail, even to the fine pearl buttons, and strongly sewed, neat buttonholes. Extra stitching and reinforcing at all points subjected to wear and strain help to make these suits, all in all, such as are bound to gain a word of praise from the man who wears them.

Our Guaranteed Quality Work Shoe

A Better Work Shoe for Less Money

$3.75 THE PAIR.

Brown or Black

Men all over the United States have learned that this is a "better shoe for less money." They know no greater value is to be found.

This shoe is so good we guarantee it against all defects in material and workmanship. The uppers are of the best "double tanned" leather, soft, pliable, long wearing, and it resists barnyard ammonias. Two full "CROMAX" Soles (the toughest sole leather) are used on every shoe. Cromax is our own trade mark, registered in the U. S. Patent Office, and is applied to the longest wearing chrome tanned sole leather we know of. It is made of selected native cowhides and is thoroughly tanned by experts. Every sole is thoroughly soaked in wax.

Notice the soft toe, made on a roomy army last. A bellows tongue keeps the dirt out. All seams are triple stitched with waxed thread. Shoe is strictly ALL LEATHER.

Consider the price—$3.75. Nowhere else will you find such a big value.

$1.98
Sold elsewhere for $2.50 to $3.00.

15H4630 **The Pair, $1.98**
Men's and Big Boys' sizes, 5 to 12.

Here's a typical Sears-Roebuck value—a remarkably GOOD shoe at a price that is almost unbelievably low—only $1.98. Ordinarily, of course, you wouldn't expect much for so little money, but you can depend on this sturdy shoe to give you more wear than lots of shoes you've paid $3.00 for.

It is made of smooth brown split leather and equipped with a sturdy, heavy, long wearing bark tanned leather sole. The sole is securely nailed to the upper.

We consider it an unusual achievement to be able to offer you such a remarkably good shoe at a price that's so ridiculously low. Buy a pair—you'll not find such values elsewhere.

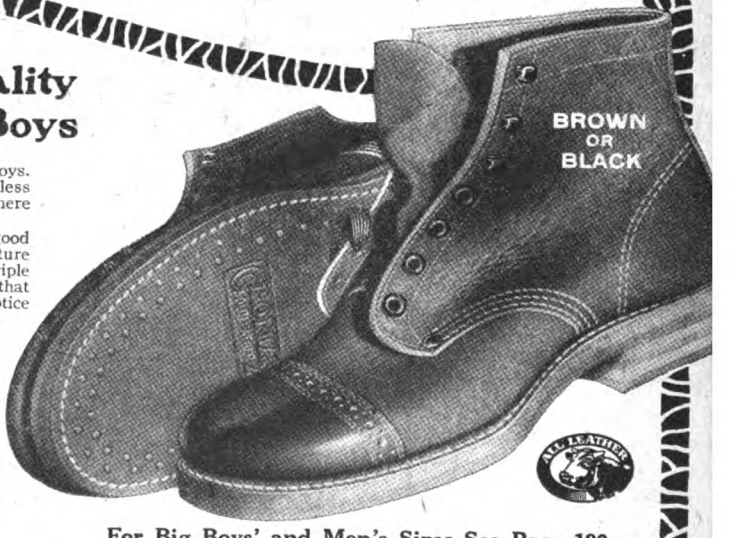
Guaranteed Quality Work Shoe for Boys

Our Top Notch Work Shoe for Boys. It is, we believe, a better shoe for less money than you'd have to pay anywhere else.

Here is one of those shoes that's good ALL THROUGH. Look at the picture showing how it is made. Note the triple stitching with waxed thread. See that full vamp that insures extra wear. Notice that the shoe is strictly all leather—not one bit of leather substitute is used. See those two full soles of CROMAX (the toughest sole leather).

This shoe is made of "double tanned" leather, which has two unusual qualities — **pliability** and **long wear.**



Here's a shoe that will "hold" that boy of yours. We think so much of it we guarantee it absolutely against **all defects in material or workmanship.**

FIRST-QUALITY

We Have Made It Easy for You to Order Rubbers.

To help you select rubbers that will fit properly we have illustrated on this and the opposite pages shoes having the different kinds of toes and heels commonly worn. In the description of each rubber we mention the style of shoe it is designed to fit. By studying the outlines and comparing them with the style of shoe you wish to fit, it will be easy for you to order the correct style rubber.

Rubbers Must Be Correctly Fitted to Give Good Service.

High heel rubbers must be worn over high heel shoes and low heel rubbers must be worn over low heel shoes. If the rubber is too short or too narrow, it will break at the sole; if too large, it will wrinkle and then crack. Rubber footwear should be kept clean and in a dark place when not in use. Oil, milk or grease of any kind will ruin rubber. Rubber footwear, when not in use, should not be exposed for any length of time to sunlight.

Remember—we do not sell Third Quality or Factory Damaged or so called Punched Rubber Footwear.

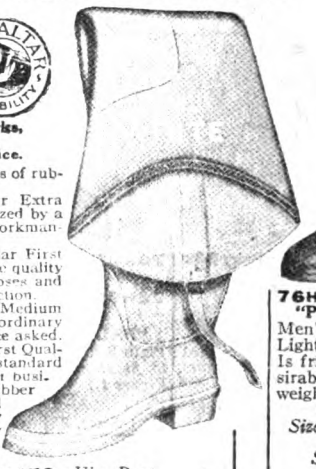
EXTRA FLINT-ROCK QUALITY — THE PROFILE RUBBER — GIBRALTAR RELIABILITY

These Are Our Own Trade Marks, "Flint-Rock" and "Profile" Registered in U. S. Patent Office.



We illustrate and describe three grades of rubber footwear in our catalog.

FLINT-ROCK is the name of Our Extra Quality grade. This footwear is vulcanized by a special process and the materials and workmanship are of the best.

PROFILE is the name of our Regular First Quality grade. This grade represents the quality which is suitable for all ordinary purposes and occasions and will give genuine satisfaction.

GIBRALTAR is the name of our Medium Quality grade. This grade will give ordinary good wear and is good value for the price asked.

Our expressions "Extra Quality" "First Quality" and "Medium Quality" refer to a standard method of description used in the rubber business to denote various grades of rubber footwear. There are no damaged or punched goods or rejects in any of our rubber goods and we carry no "3rd Quality" rubber.

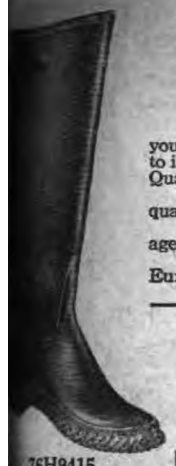
Every Pair a Remarkable Value

Facts You Should Know Regarding Rubber Footwear.



Rubber footwear is made in certain grades of quality which remain practically unchanged year after year. Thus when you once become familiar with the different grades you can tell what service to expect from the footwear you buy—according to its grade. The very best grade is designated by various trade names such as "Pressure Cured," "Special Process," "Extra Quality," etc.; next comes "First Quality," then "Second or Medium Quality," and then "Third Quality," and so on.

The brand imprinted on the sole of rubber footwear is for your protection; it represents the quality—it is either extra quality, first quality, medium quality or third quality, and you should be charged according to the grade you buy.

Insist on knowing what grade you are buying—then compare prices. Also remember this: Rubber deteriorates with age. The rubber footwear shown here is clean, fresh and new.

Do not confuse it with boots and arctics which were manufactured several years ago for military use during the late European war and are now offered for sale by others at greatly reduced prices.

To get the most wear per dollar buy fresh, clean rubber footwear. Read about our trade marks on the opposite page.

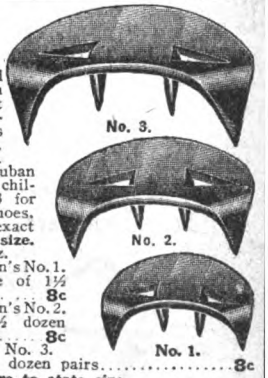
Handy Shoe Repair Last.

Something new for the family repairman. It combines three lasts into one. Being constructed in one piece there are no parts to become mislaid, neither is it necessary to fasten it to a table or block of wood. Note the illustration—there's a small last for children's shoes, a large last for men's and women's shoes and a last for repairing the heels.

Just set it on a table, on a block of wood or on the floor. It is perfectly rigid in any of three positions.



See how very low priced it is. It's certainly economy to own the handy shoe repair last. Shpg. wt., 8½ lbs.

Sole Savers.

These small plates make an ideal protection for both soles and heels. For men's, women's or children's shoes they are just the thing. Stamped from the best sheet steel and will automatically clinch when driven into the leather. Any number of plates can be attached as close together as you wish, so that the entire wearing surface of heel and sole is protected. Because of their small size "Sole Savers" do not interfere with the flexibility of the leather. Make your shoes wear longer. Buy SOLE SAVERS today. Shpg. wt., per pkg., 3 oz.

CROMAX

Our Own Trade Mark Reg. U. S. Pat. Off.

CROMAX

"Cromax" is a chrome tanned sole leather. It is much stronger than ordinary bark tanned leather and is without doubt the longest wearing leather made. Just sandpaper a piece of ordinary sole leather and then try to sandpaper "Cromax." You'll be surprised at its resisting qualities. Furthermore, Cromax comes to you thoroughly soaked with wax—which makes it as nearly waterproof as leather can possibly be made.

Buy "Cromax" if you want the greatest wear per dollar. Every piece of it is made from GENUINE NATIVE COWHIDE and is thoroughly tanned by expert tanners.

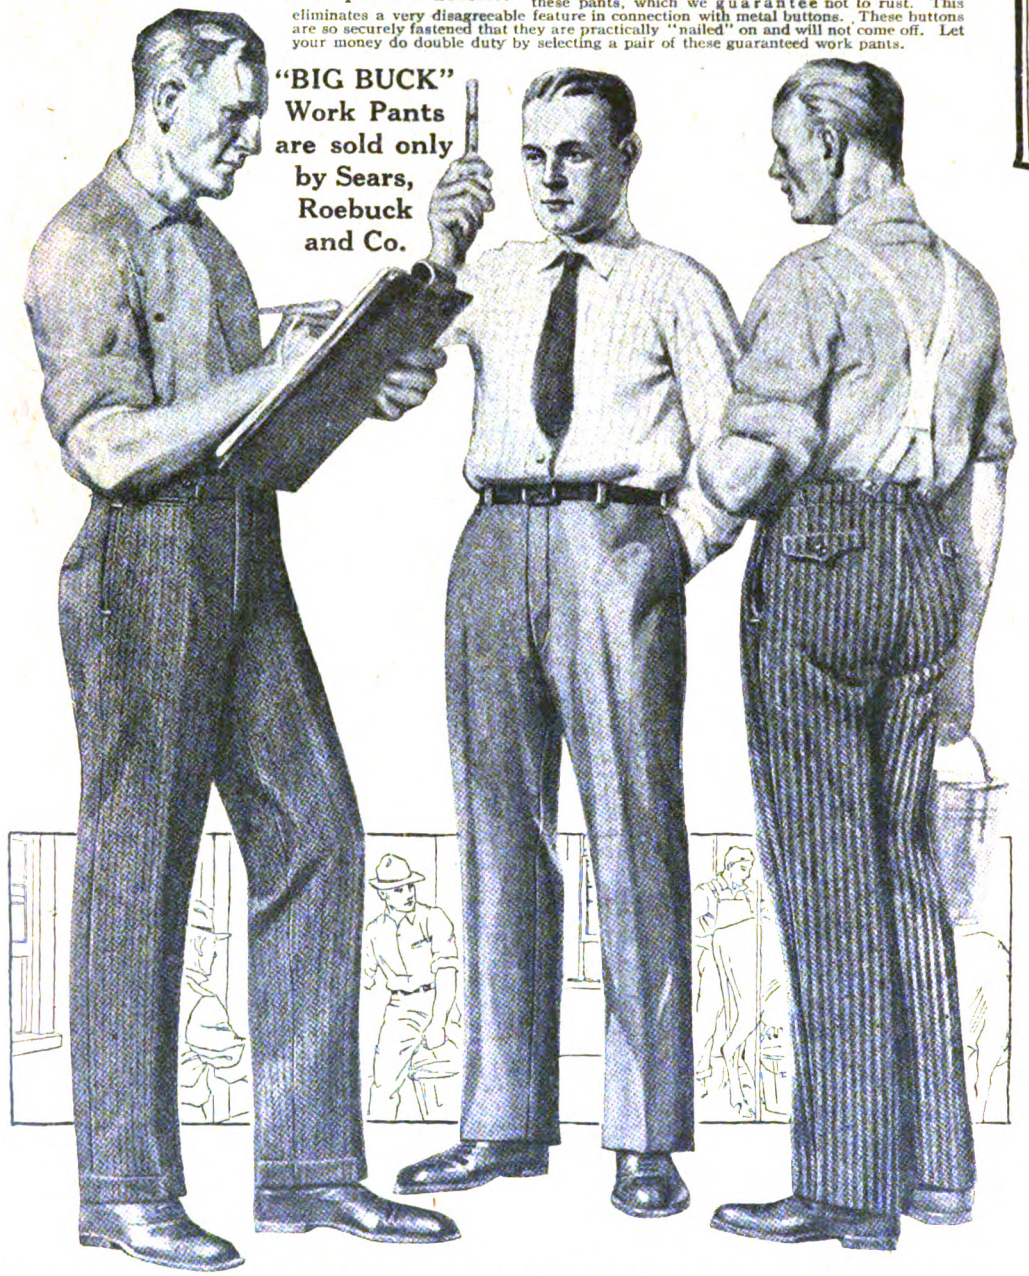
BIG BUCK" BRAND
Guaranteed Work Pants

Big Buck
WORK PANTS
DURABILITY GUARANTEED
Sears, Roebuck and Co.

SPECIAL FEATURES.

Extra Strong Workmanship. All pockets, belt loops and points of strain are well reinforced with bar tacks. The seat and crotch are strongly sewed and taped. All seams are well sewed with strong thread. We guarantee these pants not to rip in the seams.

Durable Pockets. There are two side pockets, two hip pockets and a watch pocket in each pants. Extra heavy weight boat sail drill is used in pockets and lining. This material has a reputation for toughness and long wear. Pocket corners are strongly sewed. We guarantee the pockets of these pants to wear as long as the material of which the pants are made.



Rustproof Buttons. We have selected a special patented rustproof button for these pants, which we guarantee not to rust. This eliminates a very disagreeable feature in connection with metal buttons. These buttons are so securely fastened that they are practically "nailed" on and will not come off. Let your money do double duty by selecting a pair of these guaranteed work pants.

Descriptions of Wash Suits Shown in Color on Opposite Page

Made as a Mother Would Order Them.

These suits will satisfy you as to **style, color combinations, quality of materials** and **workmanship.** This we can positively guarantee, because we have had them **made up** according to our **own specifications of high grade standard cotton fabrics, tested** in our own laboratory for color fastness, **strength** and **wearing qualities.**

The styles—look for yourself!—you wouldn't want a finer assortment to choose from. They cover all designs demanded by the most "hard to please" mothers. In addition to this, these garments are made over full size patterns; nothing but **high grade workmanship** clear through. All important seams are **double stitched** and covered, so there are no raw edges. In other words, every garment advertised on this and the opposite page will wash suit in the full sense of the term, and will come out of the wash just as bright and sound as when it went

DOUBLE Seat—DOUBLE Knees—DOUBLE Elbows.

Carefully stitched in from the inside and positively do not detract from the appearance of the suit. We have found through our many years of study and experience that boys wear out their suits in these places first, so we have made them double. This helps to prevent bulging the suit out of shape. Other shape retaining and extra strength giving features are: **Pants are full lined;** have **double stitched, taped and serged** seat and inseams. Trimming of durable materials and very **strongly sewed.** Strongly **reinforced and bar tacked** pockets; **heavy bar tacks** on belt loops and all places subject to severe strain or wear. **Cloth pocket facings. Coat** has strong **Gibraltar lining; shape retaining canvas and hair-cloth fronts; well formed shoulders; collar felled on; cloth undercollar; strongly reinforced bar tacked pockets,** vegetable ivory buttons and strong button stands. **Extra piece of material** for patching and **extra buttons** included.

Those are the reasons why we can earnestly say that **these suits should outwear two of ordinary make.**

Is it any wonder why many thousands of our customers insist on *Boyville* clothes year after year ?

$34.95 The Sit-Right Franklin

Beauty and Comfort Combined in This Machine

This Sit-Right Franklin is an exclusive design in which we have embodied not only the features that make for better needlework, but the famous Sit-Right position as

The Sit-Right Franklin eliminates the sideways strain so common in other machines. When you sew with the Sit-Right Franklin, you sit directly in front of the

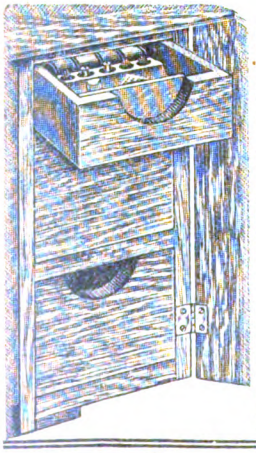
Just think! Only $34.95 for this fine Sit-Right Franklin. This is a typical Sears Roebuck value. Operating our own factory, buying the raw products in enormous quantities direct from the producer, selling directly to you through our catalog, we make this low price possible. You pay no salaries, bonuses, profits or commissions to jobbers, dealers, agents or salesmen when you buy a sewing machine from us.

Machines similar to the Franklin sell at from $75.00 to $90.00—and you get nothing that we don't give you in this Franklin, at $34.95, except a different name.

26H18—Six-Drawer Franklin. Automatic lift, quarter sawed oak woodwork, golden oak color. (Shipping weight, 120 pounds.) Price.... **$34**

Shipped from BUFFALO, N. Y., or CHICAGO, ILL., whichever city is nearer

The above price includes all accessories and a complete set of Greist attachments

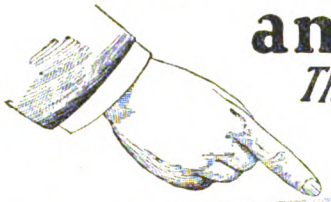


Note the Handsome Design and Woodwork

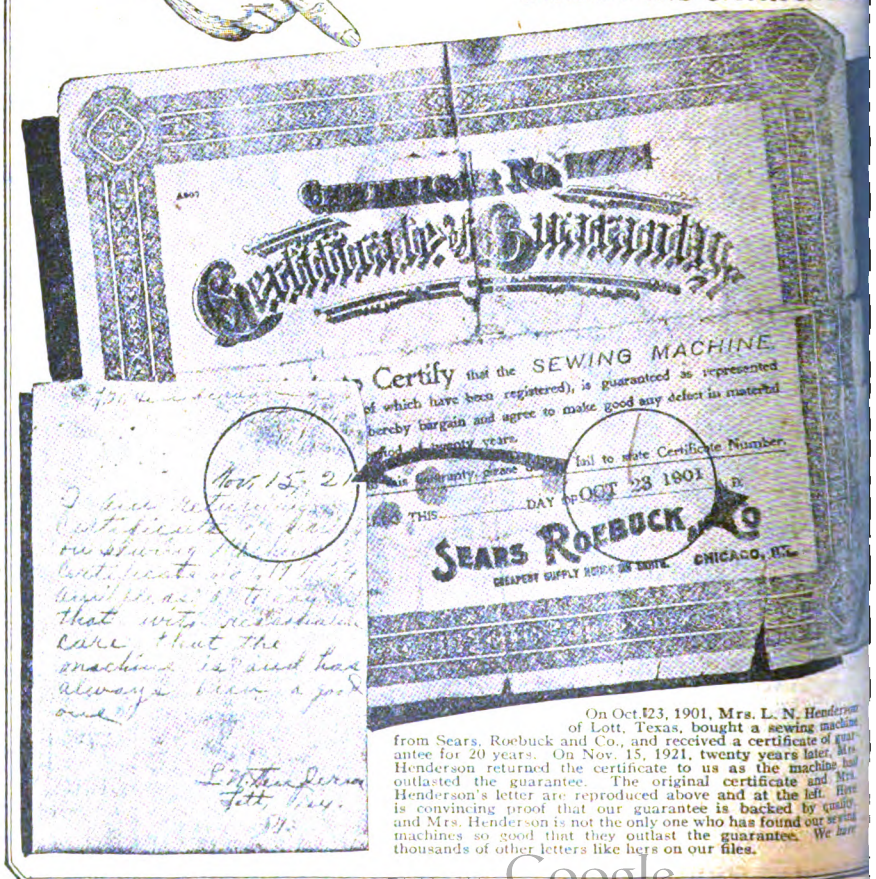
This, our newest Franklin model, is offered as one of the most handsome machines ever put on the market. It will bring to you the most modern sewing machine design, patents for which are now pending. Study the illustrations. See the artistic design in which has been combined the best quarter sawed oak woodwork. See, too, the new style drawers with the special compartment for needles, bobbins, thread and other sewing necessities. Then see how graceful yet how strongly built is this Sit-Right Franklin.

Read our most liberal offer. See with what confidence we present this machine. We don't know of any other offer more liberal. We don't believe, in fact, that you could match our proposition.

Another New Feature



The new style drawers of this modern Franklin add much to its beauty. Being enclosed in a single compartment, the drawers on each side are practically dustproof.



We call to your particular attention the top drawer on the right hand side, illustrated here. Note the special arrangement by which thread, needles, bobbins, etc., are kept in their proper places. This is a feature that will instantly appeal to every woman who sews. And you will find it only in this Sit-Right Franklin. We have patents pending in the United States Patent Office protecting the design of this new and attractive set of woodwork. This is just another proof of Franklin superiority.

Here Is Our Liberal 20 Year Guarantee

We guarantee our sewing machines to be perfect in material and operation for a period of twenty years when properly cared for. We will make good any defect in material or workmanship. The guarantee does not apply to the breaking of needles, shuttles, bobbins or belts.

and Here's Proof That Our Sewing Machines Outlast the Guarantee

On Oct. 23, 1901, Mrs. L. N. Henderson of Lott, Texas, bought a sewing machine from Sears, Roebuck and Co., and received a certificate of guarantee for 20 years. On Nov. 15, 1921, twenty years later, Mrs. Henderson returned the certificate to us as the machine had outlasted the guarantee. The original certificate and Mrs. Henderson's letter are reproduced above and at the left. Here is convincing proof that our guarantee is backed by quality and Mrs. Henderson is not the only one who has found our sewing machines so good that they outlast the guarantee. We have thousands of other letters like hers on our files.

The Franklin Head

Franklin is a high arm, double thread, lock-stitch sewing machine. It is built to last a lifetime. The big features of the Franklin Head are few parts, simple construction and perfect adjustment. The construction of the head is such that there are few points of friction, and careful adjustment of every part insures easy, light running. It is a fast worker and has perfect threading at every point except the eye of the needle.

Some Genuine Franklin Features.

To change the needle without using a screwdriver. Every woman using a sewing machine knows the advantage of having a thumb-screw for this purpose.

By means of the automatic shuttle ejector the bobbin is easily lifted out of the carrier, saving trouble.

The presser foot fits solidly against the bar. It cannot move sideways once it is fastened. This prevents breaking and bending needles by striking the foot.

The balance wheel is on the outside of the wheel. When you want to raise the head for oiling, you can do so by the belt without rising from your chair. This is a great convenience.

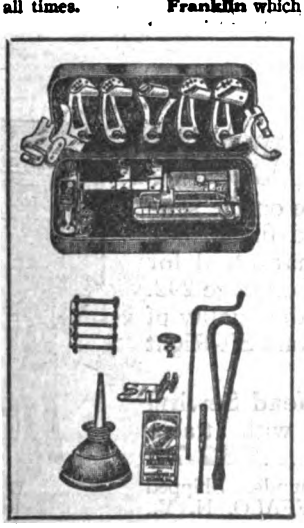
The automatic bobbin winder makes it easy to wind perfectly wound bobbins at all times.

The independent positive cam takeup, together with the disc tension, insures a perfect stitch on all kinds of materials, because by means of this combination a regular, steady pull on the thread causes the locking of the needle thread and the bobbin thread in the center of the thickness of the material.

The automatic tension release is a great convenience, because by raising the presser foot all tension on the thread is released and you can draw the work from under the presser foot without danger of bending the needle or breaking the thread.

The extra strong and large feed is a very important part of this machine. It works direct and is positive in its action. The large working space under the arm and the superior design of the head make the Franklin adaptable for all kinds of sewing from the lightest chiffon to the heaviest materials.

These are but a few of the many good points of this wonderful Franklin machine.



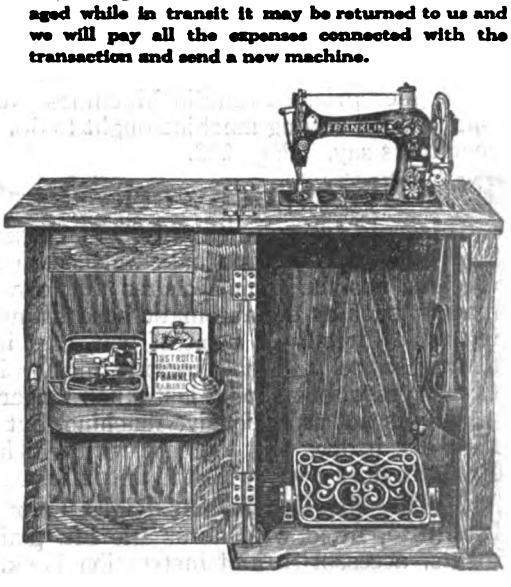
It is no exaggeration when we say there are more sewing machines of the Franklin type in constant use for family sewing today than of any other single type of family sewing machines.

A sewing machine is bought for service; therefore, buy one with a reputation. Buy the Franklin which is built to last a lifetime.

The Attachments

The high grade set of attachments is furnished with every Franklin machine.

These attachments are manufactured by the Greist Co., the makers, who supply their attachments to the manufacturers of high grade sewing machines. The set consists of one tucker, one ruffler, one shirring blade, one edge braider, one short presser foot, one binder, one bias cutting gauge and a set of four hemmers



The Accessories

The set of accessories, which is furnished without extra charge with all Franklin machines, consists of one quilter, five bobbins (and one in the machine), one hemmer screw, one large nickel plated screwdriver, one small nickel plated shuttle screwdriver, an oil can filled with oil, one foot hemmer, one package containing six needles, assorted sizes (and one in the machine).

Three Months' Trial

We are willing to have you test any of our Franklin, Economy Rotary or Minnesota Sewing Machines for a period of three months in your own home, on the class of household sewing you expect to do. When you get it home, begin the trial to determine if it is the machine you want. Try it out on the family sewing. If, after three months' trial, it does not give you the full satisfaction you expect, send it back and we will return your money and the transportation charges you paid.

We guarantee that your machine will reach your station in good order. This means that if it is damaged while in transit it may be returned to us and we will pay all the expenses connected with the transaction and send a new machine.

A Sit-Right Model at a Low Price

This machine is equipped with the famous Sit-Right Franklin Head that takes the backache out of sewing days. This head is completely described on page 293. It also has the automatic head lifting device, so that when you raise the lid the machine head is automatically lifted into sewing position. Transferred on this machine you will also find an 18-inch measure, ready for use at all times. The stand is extra wide and is made of cast iron, finished in black japan and furnished with casters, which enables you to move the machine easily from place to place. The ball bearing wheel and ball bearing metal pitman make this a very light and easy running machine. You may purchase this machine on our three months' trial plan, described on this page, and prove to your own satisfaction what splendid value we offer. Our Lowest Priced Franklin

While this is the lowest priced Sit-Right Franklin Sewing Machine we offer, bear in mind that it is equipped with the famous Franklin Head, the same identical head used in our higher priced models. There is only one quality in our Franklin Sewing Head, and the difference in price on Sit-Right Franklin Sewing Machines is due only to the difference in the styles of cabinets and stands. If you want a good, durable machine that can be depended upon to render competent sewing service, but do not care to pay a higher price, we unhesitatingly recommend this machine for your purchase because, fitted as it is with the same sewing equipment as our higher priced Franklin Machines, we know it will surely come up to your expectations of what a good sewing machine ought to do. You don't have to take our word. Read what our customers say. Page 298.

Excellent Woodwork—Perfected Mechanism

It has six drawers, with nicely embossed fronts and wooden knobs. The woodwork is plain oak, finished in a dark golden color. This machine has the same features that are found in the higher priced models, such as the automatic head lifting device, the 18-inch measure on the sewing table directly in front of you, cast iron stand in black japanned finish, ball bearing wheel and ball bearing metal pitman. This machine is guaranteed for twenty years, but should last much longer, as shown by actual proof on page 292.

This is not an expensive machine, but you will be delighted with the quality of the work it does and the ease with which you can do it, for the famous Sit-Right Franklin does away with the uncomfortable sewing position.

Franklin Portable Electric Sewing Machine

This machine can be put away in the closet, occupying but little space.

Our price does not include table.

$39.85

Buy This Machine if You Have Electric Power

Whether you are a beginner or an experienced seamstress, you will be surprised at the modern way of sewing. All one has to do is to guide the sewing. A small electric motor does all the work which the feet do on the ordinary machine, only it does it quicker. It will do about three times as much work as any foot power machine can do in the same time.

A slight pressure of the foot and the machine is started. It runs quietly and stops quickly when the pressure of the foot on the treadle is released.

Simply attach the plug to any lamp socket and you are ready for a day of sewing. You have absolute mastery of the machine at all times. With both hands free to handle the material you accomplish more in a much shorter space of time.

Can Be Moved About Easily

Sewing is fine work, and to do it properly you need light. If in the morning you get the best light in the living room, put the portable on the table. In the afternoon the light may be better in the kitchen, dining room or bedroom, and the portable can be moved without any trouble whatever. In the Summer the sewing may be done on the porch or lawn by using an extension cord. When through using the machine, put on the dustproof cover and it will occupy but little space in the bedroom or closet.

The Franklin Portable Electric is equipped with the famous Sit-Right Franklin head. The advantages of this style head and the details of its construction are fully described on page 293.

Fine Quarter Sawed Oak Woodwork

The base of the cabinet is genuine quarter sawed oak, finished in the ever popular golden color. The design of the cover is plain and dignified. The ends are solid oak, while the sides and top are formed of one piece of three-ply oak veneer.

The motor, which is of special design, is manufactured by the Westinghouse Electric and Mfg. Co., and may be used on either direct or alternating current of 105 to 115 volts. This is the current used almost entirely in small town or city residences for lighting purposes.

The Franklin Portable Electric is fully guaranteed for twenty years of satisfactory service. You have the privilege of trying it thoroughly for three months before you decide to keep it.

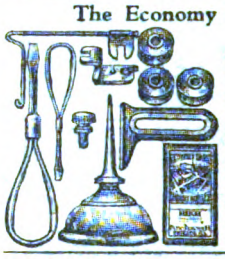
The Economy Rotary Head

The Economy Rotary Head is a high grade, [illegible] light running sewing machine head of the double thread stitch type. The head here described is the same as the six-drawer and Parlor Cabinet style machines.

This "Rotary" Head is so named because it has a rotating shuttle. The continuous rotating motion of the [illegible] insures rapid and accurate stitching. No matter how the machine is run it always makes a perfect stitch.



All tension on the thread is released by raising the foot, and you can draw the material from under the foot without bending or breaking the needle or [illegible] thread. This is a positive advantage that will be appreciated by those who have a great deal of sewing to do.

It is also provided with a bobbin winder which automatically stops winding when a sufficient quantity of thread is on the bobbin. There are two steel spool pins on top of the head, making it very convenient to wind the bobbin.

Simplicity of operation is very important in a sewing machine and this is one of the outstanding features of the Economy Rotary Head. We positively guarantee that anybody who has never used a sewing machine or attachments will quickly learn to operate the Economy Rotary. A book of instructions, which are easily understood, goes with each machine.

We guarantee that an Economy Rotary Sewing Machine will give you twenty years of satisfactory service. We know that the cabinet work will please you and that you will be delighted with the way this machine sews. Try a Rotary; use it for ninety days, if it is not satisfactory, send it back and your money will be returned to you.

The Economy Rotary Accessories

The set of accessories is furnished without charge with the Economy Rotary machine consists of bobbins (and one in the machine), one gauge screwdriver, one cloth guide gauge, [illegible], one foot hemmer and [illegible] oil can filled with oil, two screw drivers and a quilter. These accessories will enable you to keep your machine in good condition without difficulty.

The Economy Rotary Attachments

This high grade set of attachments is furnished with every Economy Rotary Machine. These attachments are guaranteed by the Greist Co., the makers, who supply their attachments to most manufacturers of high grade sewing machines.

The set consists of one tucker, one five-stitch ruffler, one shirring blade, one under braider, one short presser foot, one binder, one bias cutting gauge, a stitch awl and one set of four hemmers of different widths.

The Economy Rotary Bobbin Case

The Rotary Bobbin Case controls the thread tension. The adjustment and [illegible] the Economy Rotary is simplicity itself. The tension spring on the bobbin case is adjusted that practically all the ordinary family sewing can be done without changing the lower tension. The Rotary Bobbin which fits in this case is [illegible] shape and holds a greater quantity of thread than the ordinary type of bobbin. The bobbin is easily filled on the Economy Rotary Sewing Machine is provided with an automatic bobbin winder which stops when a sufficient quantity of thread is on the bobbin.

The Economy Rotary Shuttle

The Shuttle receives the bobbin and is fastened to the [illegible] at the end of the shaft, which moves with a revolving motion in perfect time with the needle. There are no dropped stitches with the Economy Rotary—no clogging—no stopping of the machine. This type of shuttle mechanism is simplicity itself. It is made by the latest types of automatic machines and is turned out of a solid bar of special steel. There are no springs or supplementary parts to cause trouble or get out of order.

A Rotary Cabinet of Graceful Design

If you prefer a cabinet sewing machine, this one will interest you. The design is graceful, the proportions are correct and the richness of the wood and the finish lend a charm to this machine, whether you use it for sewing, or as a piece of furniture, when it is closed. The design is plain—there is just enough ornamentation to add dignity. The top is made of quarter sawed oak. The door and sides are constructed of built-up stock with special quarter sawed oak veneer for the outside. The workmanship is splendid and the finish—a highly polished golden oak—is beautiful.

This machine is fitted with the regular Economy Rotary Head. It has ball bearing balance wheel, which gives the same rapid action and ease of operation as the ball bearing arrangement in a finely made bicycle. The automatic head lifting device brings the sewing head into position for use with little exertion and provides a sewing table surface of generous size. There is an 18-inch measure on the table for sewer's use.

Read What Some of Them Say:

Sears, Roebuck and Co.

Gentlemen:

Would like to have you know I have one of the Sears-Roebuck sewing machines. Think it is the best ever, for I have had it twenty years last March. It has never been repaired and is in fine condition. Have done all kinds of sewing from heavy coats to the finest of little dresses. Would not trade it.

MRS. WALTER HOWE,
Brookfield, Mass.

Sears, Roebuck and Co.

Gentlemen:

I am dropping you a few lines to let you know that I like your sewing machine fine. I find that it gives me better service than the one that I did have. I can say this much, I have put my old one in the junk pile now, and I would not give your machine for a thousand of the other machines now on the market, for there is not a better machine than yours.

EDWARD REEVES,
Montgomery, Ind.

P. S.—Will you please print the above letter in your catalog so everybody can read it?

Sears, Roebuck and Co.

Gentlemen:

I just want to say a word for your sewing machines. I have been sewing for the public for eighteen years. I bought one of your sewing machines September 7, 1903, have been using it every day since, and am still using it. It does as good work as ever, and I am still sewing for the public. Have had very little repairs, but have taken good care of it.

Respectfully,
MRS. MAE OVERMAN,
Hazen, Ark.

Dade City, March 3, 190

Sears, Roebuck and Co.

Gentlemen:

Am writing to tell you, twenty years I picked up a paper and saw one of y sewing machine advertisements. I for the machine at once. With it sent a full set of attachments, also paper of needles and a twenty-y guarantee. I still have the machine it has never been repaired. Has same band on it that came with machine. The needles lasted eight years. I loaned two needles to a lady Brooksville and loaned two to a lady Ocala. We have traveled hundreds miles and the machine was ship from place to place. I have done of sewing for others. It has helped to make considerable money.

Two years ago an agent came to house. I was not at home. The ag told my husband of the wonder machine he had and how pleased would be when I came in to find a n new one in place of the old one. I co in just as they were taking my machine out. I told the agent that might just as well try to take one of children. So I still have my old ma chine. It makes better stitches tha than some new ones.

We have ordered from you seven times and have always found your goo satisfactory. Your friend,

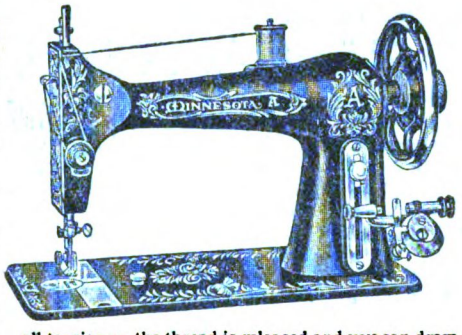
The Minnesota Model "A" Head



The sewing head of the Minnesota Model "A" machine is splendidly finished. The old gold design decorations on a black enamel background, with the elaborate nickel plated trimmings and graceful outlines make a handsome sewing head in every detail.

Here are some of the special features of the Model "A" head:

AUTOMATIC BOBBIN WINDER makes it easy to wind bobbins and insures a perfectly wound bobbin at all times.

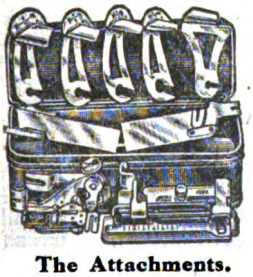
INDEPENDENT POSITIVE THREAD TAKE-UP insures a perfect stitch on all kinds of materials. There is a steady, regular tension which is necessary for an even and perfect stitch.

AUTOMATIC TENSION RELEASE. By raising the presser foot all tension on the thread is released and you can draw the work from under the presser foot without bending or breaking needles or breaking the thread.

EXTRA STRONG AND LARGE FEED. Particular attention has been paid to this very important part of the machine. We believe that we have as perfect a feed in this machine as has been produced.

DISC TENSION. This is another aid and insurance for a perfect stitch.

Try It for Ninety Days in Your Own Home



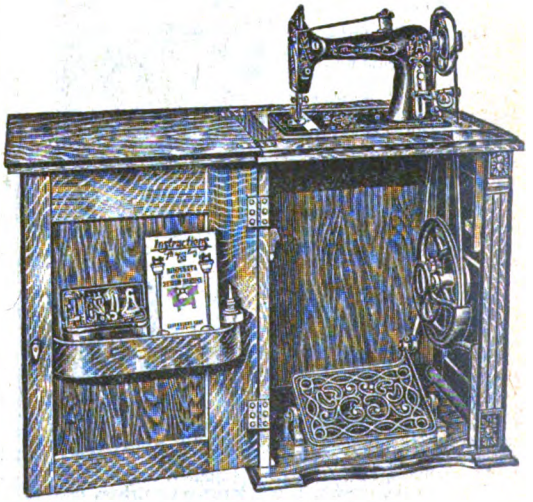
If you want a substantial sewing machine of the cabinet type, but do not care to invest in the higher grade machines, this machine will serve you well. The mechanism is identical to the one on the opposite page, being equipped with head lifting device, ball bearing balance wheel, with ball bearing metal pitman, and automatic bobbin winder.

In your own home, the only real place to try a sewing machine, put the Minnesota to every test for ninety days. We're sure that at the end of that time you too will write a letter like those we reproduce on the opposite page. If, however, for any reason you don't want to keep the machine, simply send it back at our expense and we will return your money, including any transportation charges you paid.

See page 292 for actual proof of the truth of our guarantee.

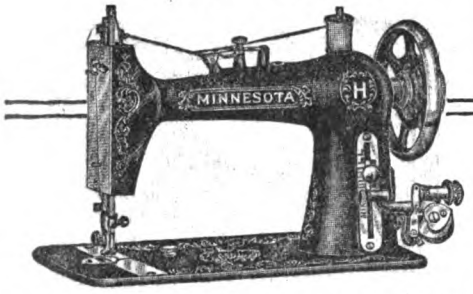
Attachments and Accessories

A good sewing machine with regular family sewing and ordinary care should last a lifetime. That is what the Minnesota Model "A" will do, because we have put into it a quality which will endure. We have taken only the best materials that are adapted for the purpose, and those materials into the hands of the most skilled mechanics that years of experience and constant supervision will produce, and the finished product is a sewing machine head that we can unhesitatingly guarantee for many years.



The Attachments.

The attachments for our Minnesota Model "A" Sewing Machine are made by the Greist Manufacturing Company. The complete set includes one ruffler, one shirring blade, one tucker, one underbraider, one binder, one short foot and one set of four hemmers, up to ⅝ inch wide. Attachments are made of steel, heavily nickel plated and polished.



The Accessories.

We furnish without extra charge with every Minnesota Model "A" machine a complete set of accessories, consisting of five bobbins (and one in the machine), one gauge screw, one quilter, six needles (and one in the machine), one foot hemmer and feller, one oil can filled with oil and two screwdrivers.

Minnesota Model "H" Head

The Minnesota Model "H" Head is a high arm type, so that there is plenty of room under the arm. It makes the double lockstitch, the same stitch made on all of our high grade sewing machines. It is self threading at every point except at the eye of the needle. The machine is substantially made throughout, carefully and accurately fitted and tested. We can furnish the Model "H" in three styles as illustrated on this and the opposite page.

The Minnesota Model "H" is a silent and easy running machine. All bearings and wearing parts are made of steel, specially selected and properly fitted. The tension on this head is placed on top of the arm and consists of two flexible nickel plated steel plates through which the thread passes. The shuttle is cylindrical in shape and made of fine grade steel. It is self threading, being opened at one end for inserting the bobbin, after which the thread is instantly drawn into place by two motions of the hand.

A complete instruction book is furnished with every Minnesota Model "H" Sewing Machine, which explains exactly how this machine is operated, how to care for it and how to use the various attachments. Machine sewing is made so simple that anyone can secure satisfactory results, even without previous experience.

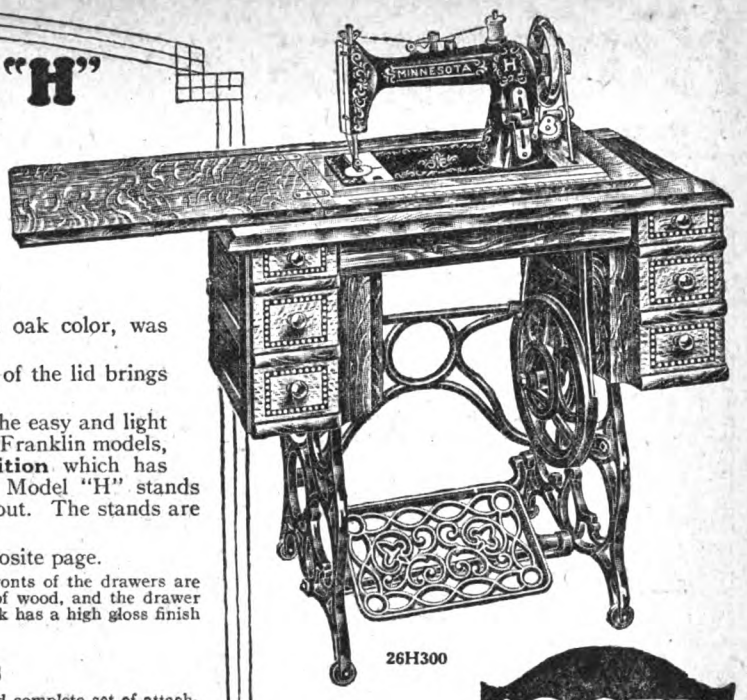
Minnesota Model "H"

Drop Head

In the six-drawer, drop head Minnesota Model "H" 26H300 we give exceptional value—

Because the Minnesota Model "H" in our opinion is the best top tension type high arm sewing machine head on the market today. See opposite page for full description of this head.



Because the six-drawer set of oak woodwork, with the embossed drawer fronts, nicely finished in the popular golden oak color, was specially made for this model.

Because of the automatic head lifting device. The mere lift of the lid brings the head into sewing position.

Because with the 26H300 Minnesota Model "H" we supply the easy and light running ball bearing stand—the same wide stand supplied with our Franklin models, which will enable you to enjoy the comfortable **sit-right position** which has helped so much to make the Franklin famous. All Minnesota Model "H" stands are fitted with casters which make it easy to move the machine about. The stands are finished in heavy black japan enamel.

The Minnesota Model "H" head is fully described on the opposite page.

The woodwork is made of oak. Style 26H300 has six drawers. The fronts of the drawers are decorated with heavy embossing of attractive design. The drawer pulls are of wood, and the drawer fronts are fitted with locks so that every drawer may be locked. This woodwork has a high gloss finish in the popular golden oak color.

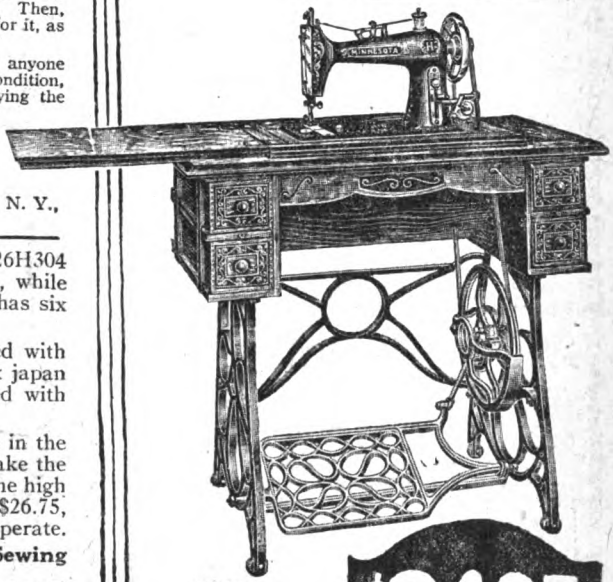
Attachments and Accessories



With every Minnesota Model "H" Sewing Machine is furnished a full and complete set of attachments and all the accessories as illustrated and described on the opposite page. The attachments are easy to understand and operate and require no special training to secure the most satisfactory results. They are wonderful time savers, and enable any woman to add the various fine touches and decorations necessary on the dresses and frocks either for the children or for herself. The instruction book furnished with every Minnesota Model "H" machine explains the uses and the various operations in every detail, so that anyone studying the instruction book without any further or previous experience will get the full benefit of the use of all the attachments.

Remember, you have all the privileges we offer. The three months' trial agreement is in force the moment you receive the machine. If there is any question in your mind, if you are inclined to buy a sewing machine from an agent or dealer, let us ship you a machine on three months' trial. Then, if you are not satisfied in every way, you may return the machine, and the money you paid for it, as well as the freight charges, will be returned to you without delay.

We guarantee you will receive from us a perfect machine—nothing better to be had from anyone else at anywhere near the price we ask. We guarantee the machine to reach you in perfect condition, the same as it left our hands. We guarantee you will make a big saving in the price after paying the freight charges. You take no risk. Send us your order.

26H300—Six-Drawer Minnesota Model "H" Drop Head Ball Bearing Sewing Machine with automatic lift, plain oak woodwork, with complete set of attachments, accessories and instruction book.
Price..... **$26.75**

Shipping weight, about 120 pounds. Shipped from CHICAGO, ILL., or BUFFALO, N. Y., whichever city is nearer you.

26H304

$24.85

The Minnesota Model "H" head is described on the opposite page. 26H304 woodwork has only four drawers and is the hand lift model. The woodwork, while well made and nicely finished, is not to be compared with the 26H300, which has six drawers and the automatic head lifting device.

The 26H304 stand is ball bearing and therefore light running. It is fitted with casters so that the machine can be moved about easily and is finished in black japan enamel. The complete set of attachments and all the accessories are supplied with the machine.

For the woman who does not sew much, but who wants a sewing machine in the house, the 26H304 at $24.85 is ideal. But where a machine is to be used to make the spring and Summer and Fall and Winter outfits, and you want the comforts of the high arm, higher priced machine, then by all means order our 26H300 at only $26.75, and you get a modern, comfortable Sit-Right machine which will be a joy to operate.

26H304—Four-Drawer Minnesota Model "H" Hand Lift Drop Head Sewing Machine with all attachments and accesories.

Shipping weight, about 110 lbs. Shipped from CHICAGO, ILL., or BUFFALO, N. Y., whichever city is nearer you.

The Elmore Four-Drawer Drop Head Sewing Machine $19.85

Closed View, 26H318

Back to old times. In this, our $19.85 Elmore Sewing Machine, we are offering an example of the wonderful values to be found in our entire selection of sewing machines.

We are leaders in the sewing machine business in this country selling direct to the user, and by our progressive methods of furnishing sewing machines that will stand the test of time, at extremely low prices, have succeeded in building a reputation that sells more machines for us than are sold by dealers combined selling direct to the user.

For anyone desiring a sewing machine that will do an average amount of work, we recommend our Elmore at $19.85.

Our ability to furnish this four-drawer, drop head, oak cabinet sewing machine at $19.85 is a further proof of the quality we are able to put into our Franklin and Minnesota machines at a comparatively small difference in price.

The Elmore is a high arm, top tension, double lockstitch type of sewing machine which we fully guarantee for twenty years of satisfactory service, but we do not urge or recommend the purchase of this machine, being confident that for the few dollars more necessary for the purchase of either the Franklin or Minnesota you will receive much greater value.

However, if circumstances prevent your spending those additional few dollars, then you can buy this Elmore machine with perfect confidence that we will protect you for twenty years against any defect in material or workmanship.

Sateens and Linings

Guaranteed Qualities - Popular Colorings

Black Sateens

Lustrous Cotton Sateen.

Width, About 25 Inches.

36H5810—Black only. We have especially selected this quality as our opening number in our elaborate line of sateens and believe it to be the equal, perhaps the superior, to sateens usually sold at 25 cents a yard and sometimes more. We sell tremendous quantities of this cloth so that we own it at the most favorable level possible. We could offer you cheaper sateens, but for the little difference in price there would be too great a quality sacrifice. Our price for this dependable cloth will be found as low as what is asked for cheaper grades generally. Shipping weight, per yard, about 2½ ounces. **19c A YARD**

A WORD ABOUT WASHING.

WASHING experiments conducted by our Laboratory have shown the following "DON'TS" are essential in washing colored cotton goods if the best results are to be obtained:

First—Don't boil colored clothes, as boiling will have a harmful effect on almost any color.

Second—Don't use washing powders, soda or other laundry soaps; use a good grade of neutral soap, such as Royal White Floating Soap (our own brand), Ivory Soap, Royal White Soap Flakes (our own brand) or the like.

Third—Don't wash garments of different colors together or permit to lie rolled up together.

All of our fabrics are products of mills which are reliable, and if these simple precautions are observed in washing, our customers should receive the maximum amount of satisfaction from our colored cotton goods.

Have You Been Fortunate Enough to Discover the Decided Superiority of FLAXON FABRICS?

Has it ever occurred to you that fabrics woven of well twisted fine yarns will have the even texture and perfect weave which women are always seeking? In the first place, Flaxon fabrics are made of just such yarns; but that is not the whole story. All Flaxon fabrics are put through a private process of finishing and then thoroughly mercerized, making the fabrics beautifully lustrous. This, combined with the special finish implied by the name "Flaxon" makes these special cotton fabrics very linenlike, but finer. They retain their texture and luster indefinitely, similar to linen. You are bound to get satisfaction when you buy high class fabrics of this kind.

A range of most desirable qualities, from the first number, which is a popular every-day standard often sold at much higher prices, to the top number, which is the finest India linon ever carried in the best stores. We price all of these fine cotton fabrics on the basis of cost and not at what they will bring, because we always give our customers full value. Shpg. wt., per yard, about 2½ ounces.

Permalawn White Fabrics

Permalawn fabrics need no starch to keep them crisp. That is a very valuable feature for sheer, light weight materials which are difficult to starch without clouding. With Permalawn fabrics our customers are guaranteed a permanent finish heretofore only obtainable in imported cloths at much higher prices. Especially in the case of organdies is this Permalawn finish so highly desirable, because the fabrics always retain the crisp, delightful, sheer texture for which many people will pay two and three times as much. Give these wonderful cotton fabrics a trial and discover for yourself their real superiority.

WIDE SHEETINGS

Standard Quality

These Standard Wide Sheetings are closely woven and are of a very dependable weight and quality. The cloth has 64 threads to the inch in the warp and in the filling and is the quality that reputable merchants describe as "standard." Lighter weight sheetings can be had at slightly less money, but for the little difference in price we feel there is too great a sacrifice of wearing quality to make it desirable for us to offer them. This standard quality will give you satisfaction and our prices are very low.

Launderite Sheets and Pillowcases

OUR OWN TRADE MARK REG. U.S. PAT. OFF.

STANDARD QUALITY

Launderite Sheets are made of full standard quality cotton sheeting which has the same number of threads to the inch and is the same weight that brought this famous brand to the forefront when we first introduced these goods many years ago. When you buy Launderite quality you are guaranteed strength, durability, satisfaction. We want you to return these goods if they do not give satisfaction, because of all the tremendous quantities we sell year after year we know of no instance where the goods have failed to give utmost satisfaction. Our price must be right; otherwise this famous line would not be in such popular demand. It is always our policy not only to maintain the quality of these goods but to give the customer the lowest possible prices at all times. Our values are never challenged and if you are not already one of our many customers who use these goods steadily why don't you sample these Launderite Sheets and uncover for yourself a new means of saving on this big household item?

Every sheet made of hand torn sheeting, thus guaranteeing that the sheets will be straight after laundering. Light enough for easy washing and heavy enough to stand the test of wear. Free from weighting and excessive starch. They look good and are good. Uniform in quality and, as the name implies, will launder perfectly. Sold under our own private trade mark, registered in U. S. Patent Office.

Seamed White Bed Sheet.

98H1348 Mill size, 76x90 inches. Size, after hemming, about 76x86 inches. Shipping weight, each about 1¾ pounds. **99c** EACH

These two numbers are both made of a lower grade bleached white cotton sheeting than we have ever handled heretofore; but, as many of our customers have inquired for cheaper goods of this kind, we are listing the same in this catalog for the accommodation of those who are unable to buy the regulation standard goods. Both the pillowcase and the sheet represent excellent values at our very low price.

Caution

Be sure the sheets and pillowcases you order are the width that will fit your bed and pillows. The sizes quoted are mill sizes. The size after hemming is 4 inches less in length on all sheets, but sheets are sold everywhere by mill size. 54-in. or 63-in. sheets will not fit double size beds.

NOTICE.

The prices quoted on this page are for one sheet or one pillowcase, not for a pair.

ALWAYS COMPARE QUALITY. When you compare prices, you have learned nothing unless you also compare quality. We save you money, quality considered, on all your purchases. Our standards are developed through experienced buying, aided by chemical and physical testing laboratories.

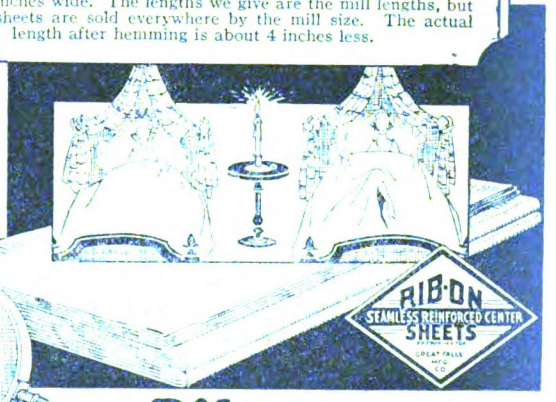
"Guest Chamber" is our own private label whereby our customers can always identify our line of extra fine quality cotton sheets and pillowcases. We encourage the use of these high quality goods because they not only wear longer and launder better, but are much more attractive and give perfect satisfaction. This finer grade of sheets and pillowcases is the same class of goods as the famous brands, such as **PEQUOT, UTICA** or **COLONIAL** sheets and pillowcases, and we may at times fill your order with either brand.

Our prices are only made possible because we handle these goods in such tremendous quantities and are, therefore, able to handle these goods in complete ranges at popular prices, which we are sure you will find exceedingly attractive.



CAUTION.

Measure your mattress so that you will order the right width sheet. We recommend the following table for your guidance:

Width of Mattress	Most Suitable Width Sheet	No. of Inches Hang Over on Each Side
42 inches	63 inches	10½ inches
48 inches	72 inches	12 inches
54 inches	81 inches	13½ inches
60 inches	81 inches	10½ inches

If an extra liberal width sheet is desired the 90-inch width makes a very generous size for a bed either 54 or 60 inches wide. The lengths we give are the mill lengths, but sheets are sold everywhere by the mill size. The actual length after hemming is about 4 inches less.

Where Does the Sheet Wear Through? Right Down the Center.—Why? Because of continuous folding at this one place. At the mill it starts. As the sheet is finished it is folded—right down the center. Every time a sheet is laundered it is folded—right down the center. No wonder the center goes when the rest of the sheet is still good.

"Rib-On" sheets are reinforced—right down the center. They wear where others tear. They give a service never before known in sheets. By weaving the material more closely at the center (see illustration in circle) where the constant folding comes, the sheet is made doubly strong. Very attractive quality of sheet. If you wish these latest improved cotton sheets you can launder them unceasingly without having to worry about the center splitting.

THE MONOGRAM.—White, in the pattern illustrated.

It will occasion wonder how we can sell these fine quality Bed Sets so reasonably. We question if quality this high can be found in the ordinary store, and if so, they could hardly afford to offer them at less than $10.00. We secure them from the mill direct and at the lowest possible level.

These two sizes are both of the same quality satin finish embossed weave. They are cotton bed sets of an unusual character and will make a bedroom cheerful and inviting. The medallion center design will accommodate an embroidered monogram if your taste so dictates, although the woven pattern is complete as it is. Each set consists of one bedspread with cut-out corners and one bolster cover or sham to match, both scalloped all around. A very beautiful combination. **Sold only by the set.**

Buy "Flower of the Flax" Linens. Then, if you will give only a little thought to their care, about them may gather for you, as gathered about the linens of old, intimate recollections and cherished memories of many years.

In laundering your linens wash them thoroughly in hot water. Mild soaps and exposure to sunlight preserve their condition, but strong soaps penetrate to the life of the yarn and rob it of its best qualities, leaving it brittle and lifeless. Rinse well to get out every bit of soap. Wring lightly out of bluing water and hang whenever possible in the bright sunlight and fresh air. This is, in a few words, "Linen Insurance."

'Our Triumph'
IG SECTION COLLAPSIBLE DRESS FORM
The upper part of our Triumph Dress Form is made of papier mache covered with black jersey cloth, to which the dress material can be pinned and draped while working or fitting. The entire form is mounted on a heavy steel extension standard, which permits the raising and lowering of the form. Fitted with casters. The skirt frame is constructed of strong flat flexible steel bands which make it practically indestructible.
The tension slide adjustment permits each and every section to be adjusted independently for every woman's measurement, even for deformities. Skirt can be full through the hips and narrow at the bottom.
This form is made in styles A and B. Style A, when closed, is 32 in. bust measure and extends to 44 in. Style B, when closed, is 36 in. bust measure and extends to 48 in. **State style wanted, whether A or B.** Shpg. wt., either style, about 35 lbs. Cannot be shipped by parcel post.

DIAMONDS

The majority of diamonds we sell are imported by us direct from the great markets of Amsterdam, Holland, and Antwerp, Belgium. This is the reason that diamonds can be bought from us very reasonably, for there has been no time since we have become importers that a fair comparison would not show a very appreciable saving to our customers.

Diamonds do not depreciate in value because of long usage and the wear they are subjected to. When you buy a diamond you own a gem which will never lose its brilliancy, nor be in any other way affected, but will remain the same always.

You can keep in style by simply having the diamond remounted from time to time. The mounting is generally the least part of the investment.

The prices we offer on diamond set jewelry give you an opportunity to save money. We send a diamond guarantee certificate with every diamond set article on pages 374 to 377. We have two certificates, A and B. CERTIFICATE A guarantees that should you for any reason return the diamond within sixty days following purchase, we will return the full purchase price without question; that at any time within a year from date of purchase you may return the diamond, and the purchase price, less 10 per cent, will be returned; that within a year after buying a diamond from us you may exchange it for another diamond or article of jewelry at a higher price by paying the difference in price, provided it is in the original setting and accompanied by our guarantee. CERTIFICATE B is sent where the mounting is fancy and the cost is an important part of the value of the entire item. This certificate guarantees that the article is exactly as represented in our catalog, genuine diamonds, splendidly cut, brilliant and of good quality, and if after wearing and comparing, having it valued, or for any reason whatsoever, the article sent is not entirely satisfactory, you are at liberty to return it within sixty days and have your entire purchase price refunded, together with transportation charges. Each item shows the certificate sent, A or B.

Examine carefully the stones bought from us, secure expert opinion from a competent judge, and you will find that the quality is all that we claim and the price unusually low.

Three Grades of Diamonds.

Diamonds are graded according to their quality. We sell three grades only.

OUR FIRST QUALITY: These are the choice stones, perfectly cut; of splendid color and brilliancy. The best selections from our imports.

OUR SECOND QUALITY: Just a shade less fine than our first quality stones. No one but an expert could tell the difference. The color is not quite as good; possibly they are not as perfectly cut.

OUR THIRD QUALITY: Well cut, brilliant stones. While not as good as our second quality, they are free from cracks or conspicuous flaws and are guaranteed to give perfect satisfaction.

Popular Style Mountings in Ladies' and Men's Diamond Rings.

Diamond Certificate A issued with each ring listed on this page. **In ordering be sure to state size and mention whether Ladies' Solitaire, Fancy White Gold, Fancy Yellow Gold, Fancy White Gold Basket Setting, or Men's Belcher Style Ring is wanted.**

When you buy a diamond you want it set in the proper mounting, for only in that way will its true beauty be shown. The Solitaire and Fancy mountings for ladies' rings, or the Men's Belcher Style, which are illustrated here, are by far the most popular mountings of the day. With any of these mountings the diamond is shown to greatest advantage. All mountings are 14-karat solid gold, except white gold rings, which are 18-karat, and are of the styles shown. We illustrate below the relative size of stones, so that you may have no trouble in making selection.

The rings shown here, both for ladies or men, we quote below. These prices include the diamond, the ring and the cost of setting. You can select any size and quality shown in this list at the prices quoted. **Be sure to give catalog number and style of ring wanted.**

See page 403 for ring measuring instructions.

Postage extra on rings, 4 cents, if under $50.00; if over $50.00 will be sent by express if there is an express office at your station. If not, will send by registered mail.

RELATIVE SIZES OF UNMOUNTED DIAMONDS.

HOW TO ORDER DIAMONDS.

These illustrations of unset diamonds are meant to show only the **relative** sizes. They show the diamonds slightly larger than the actual sizes. Diamonds are sold by weight and each stone sent out weighs what our guarantee calls for. When the stone weighs two or more points less than weight of diamond ordered, we deduct the amount and refund difference. When the stone weighs more, we take the loss.

HOW DIAMONDS ARE WEIGHED.

Our diamonds are sold under the metric system of weight, the weight also by the United States Government. We show various sizes and the old method quoting the weight, together with the equivalent under the metric system. For example:

1/32 carat between 3/100 and 4/100.
1/16 carat or 5/100.
1/8 carat between 12/100 and 13/100.
1/4 carat or 25/100.
3/8 carat between 37/100 and 38/100.
1/2 carat or 50/100.
5/8 carat between 62/100 and 63/100.
3/4 carat or 75/100.
7/8 carat between 87/100 and 88/100.
1 carat or 100/100.

Fancy Platinum and 14-Karat Solid Gold Diamond Set Rings

The Diamond Set Rings shown here have been selected with a view to offering you as splendid a value as the price can buy. They are especially priced and a purchase of any one of these rings will convince you of the bargains we are offering you. The mountings are of the very latest patterns, 14-karat solid gold bright polish. Diamonds in illustrations are very slightly exaggerated to show them better, but are guaranteed to weigh as quoted. On some of the patterns we quote one quality only, a grade between our first and second, not as fine as our first but better than our second. Each stone well spread, well cut, bright and sparkling. We send our "B" Certificate because of our special pricing and because the cost of the mounting being an important part of the value of the ring. See page 403 for ring measuring instructions. Postage, 4 cents extra on any ring illustrated here under $50.00; if over $50.00, we will ship by express.

Senorita Artificial Pearls are divided into classes—Superior Quality and Fine Quality. Both classes are guaranteed unbreakable by any ordinary use or wear. **Superior Quality Senorita Pearls** are created by applying a beautiful pearly substance on the outside of the beads, coat on coat, then dried, baked and so treated by secret process as to make them practically impervious to wear and giving them the charm and beauty comparable only with the true Oriental natural pearls worth thousands of dollars. Only experts by careful tests would discover the difference and then only in structure. The manufacturer guarantees that they will not peel, even if boiled in water, and will give the satisfaction you have the right to expect of the highest grade pearls manufactured and sold under various names at four to six times the price we ask.

Our Fine Quality Senorita Pearls. In this class the pearly substance is applied on the inside of the bead, then filled with wax to insure permanency. This process is not as costly as the process used in our Superior Quality, but produces a gem that will wear indefinitely, of great beauty, and a very near approach to genuine Orientals. Pearls are graded according to luster, the quality of the beads depending on the luster. We quote in each class three lusters—"A" luster, "B" luster and "C" luster. "A" luster being the finest.

Our Guarantee. If the string of pearls that you buy from us does not measure up with your expectations as to appearance and wear, return them and we will exchange them or return your money, together with transportation

4H26452—Superior Quality, B Luster, Our Highest Grade Artificial Pearl Bead Necklace. Luster B, which is a medium luster. Gradu size. 16 inches long. 14-karat white gold clasp.

Diamond-Like White Synthetic Sapphires

White Synthetic Sapphires contain the same elements as genuine sapphires and only experts can distinguish them from mined stones. They are so hard they will cut glass. We know of no artificial stone which so closely resembles the Genuine Diamond. The rings illustrated come in 10-karat and 14-karat gold. Ladies' rings furnished in sizes 5 to 10. Men's rings furnished in sizes 6 to 13. **In ordering rings be sure to mention catalog number and size wanted.**

See page 403 for ring measuring instructions. Postage extra for all articles on this page, 3 cents.

We supply the following catalog numbers, 4H28354, 4H28356, 4H28358 and 4H28360, in any initial or any of the following emblems on these rings: Masonic, Odd Fellows, Knights of Pythias, Modern Woodmen, Eagles, Woodmen of the World and Elks. **Be sure to state emblem or initial desired.** The initials on these rings are solid gold set on genuine black onyx top.

ILLUSTRATIONS SHOW EXACT SIZE OF RINGS

When ordering rings, be sure to mention size wanted. See ring measuring chart on page 403. Rings showing engraving will be engraved with any letter, unless otherwise stated, without extra charge. Mention letter. Where we describe a setting as being ruby color, sapphire color, amethyst color, etc., we wish it understood that these settings are clever imitations. Where the stone is genuine we so state in the description. Where described as doublets, as the name implies, the setting is made of two pieces, genuine stone fixed on front and a colored glass like material on the back. Postage extra on all articles on this page, 3 cents.

TO MEASURE FINGER FOR A RING.

...ery important when you order a finger ring from us that you send the ...e, so to help you find the correct measurement so that we can send a ...n will exactly fit your finger, we give you the following information: ...own or can borrow a ring which fits the finger on which you propose to wear ...place it on the chart above, and move it over these circles until you find one ...inside the ring. The number of that circle is the size ring you will require. If ...ould be slightly smaller and the next one slightly larger than the inside of ring ...your finger, this would indicate that you want a size between the two. For example: If size 6 is just a little small and size 7 just a little large, you will want the size between these two, or No. 6½.

If you do not own and cannot borrow a ring which is the proper size, take a soft piece of copper wire or a hairpin and twist it together to form a ring which will just pass over the middle joint of the ring finger. You can then determine the size by moving this wire ring around on the chart as described above or, if you wish, you may enclose this wire ring with your order, attaching it to the paper to prevent it being lost.

Articles showing engraving will be engraved without extra charge. Mention letter. Illustrations show actual size of scarf pin head.

Where we describe a setting as ruby color, amethyst color, or sapphire color, we wish it understood that these are the finest artificial stones made to imitate the gem mentioned.

OUR OFFER: With any solid gold scarf pin on this page at $1.50 or more, we include without extra charge the patent device that prevents the scarf pin being pulled from the tie. All scarf pins quoted in 10-karat are solid gold throughout.
